S-067244 – How to modify the default license release timeout in EPDM 2015

With the move to SNL server based licensing in Enterprise PDM 2015, all the license options are now controlled by the SNL server. This means that EPDM now supports the SNL Options file that can be used to control automatic license release.

The "old" 30 minute automatic log off that was previously defined in the license node with Enterprise PDM 2014 or older is no longer used.

The SNL based licenses will by default be revoked after 2 hours of client inactivity in the vault (i.e. when there are no vault operations carried out such as browsing, checking out, getting versions etc.).

To override the default timeout you can use an SNL Options file.

To set timeout for all licenses on server

- 1. Locate the SNL manager license folder (by default under C:\Program Files (x86)\SOLIDWORKS SolidNetWork License Manager\licenses).
- 2. Create a new text file in the folder named **sw_d.opt**.
 - Depending on server OS used you may have to start Notepad as administrator and save the **sw_d.opt** file into the folder.

_	Everywhere 🗸	
	notepad	<mark>2</mark>
	Notepad	
	Pin to Start	
	Pin to Taskbar	
	Open in new window	
	Run as administrator	
	Open file location	

• Ensure the file is named **sw_d.opt** (.opt as the extension).

▶ C:\Program Files (x86)\SOLIDWORKS SolidNetWork License Manager\licenses ✓ C Search license										
it Silverlight	^ Name	Date modified	Туре							
ft SQL Server	🗈 sw_d.lic	16-Oct-14 2:06 PM	License							
t SQL Server Compact Edition	sw_d.lic.bak	16-Oct-14 12:56 PM	BAK File							
t Visual Studio 11.0 t WCF Data Services		21-Oct-14 5:27 PM	OPT File							

• Use the **ANSI** encoding option.

1	Save A	s			x

VMware		~	< 111		>
File name: sw_d.o	pt				~
Save as type: Text Do	cuments (*.bxt)				_
Hide Folders	Encoding: ANSI		✓ Save	Cancel	

- 3. Edit the sw_d.opt file in Notepad (make sure to start Notepad as an administrator).
- 4. Add the following row to change the default timeout for all license types:

TIMEOUTALL {seconds}

Where {seconds} is the new timeout value in seconds. Minimum value is 900 (15 minutes).

dNetV	Vork	k License Manager 🔸 licenses	~ ¢	Search licenses	
1	^	Name	Date modified	Туре	Size
ditior		sw_d.lic sw_d.opt	16-Oct-14 2:06 PM 21-Oct-14 5:49 PM	License OPT File	
		sw_d.	opt - Notepad	_ 🗆 🗙	
		File Edit Format View Help			
		TIMEOUTALL 1800		^	

5. Save the options file.

6. Enable the new options file by clicking **Modify** and selecting **Activate/Reactivate a software license**.
